

Notes

1. Date:

Import declaration data retrieved between 2014-01-01 and 2018-12-31 inclusive.
2. Commodity:

Retrieved import declaration data under Harmonized System (HS) Codes for:

Reptiles

Amphibians

Birds

Mammals

A new tariff classification was added to the Customs Tariff in 2017, which may affect the results, particularly prior to 2017.
3. Notes on Fields:

Taxonomic Name field shows taxonomic names declared by importers on electronic import declarations; left blank when no taxonomic names provided.

Common Name field shows common names declared by importers on electronic import declarations; left blank when no common names provided.

Country of Origin and Place of Export: Country codes declared on import declarations (electronic and paper); for list of country codes and corresponding countries, see: Appendix H, List 2: <https://www.cbsa-asfc.gc.ca/publications/dm-md/d17/d17-1-10-eng.html#a13>

Animal Source: (captive reared, wild, etc.) unable to ascertain frommost import declarations

Purpose of Import: inferred from importers/exporters on declarations.
4. General Notes:

Taxonomic and common names for those species declared on paper import declarations are not accessible, hence the frequent 'blanks' under the Taxonomic Name field and the general categories, based on HS code, in the Common Name field (e.g., Amphibians, Reptiles, Primates, Birds of Prey, Pet or Song Birds).

The number of individuals imported as declared on paper import declarations are derived from electronic records based on Harmonized System (HS) codes and reported for each unique combination of country of origin/place of export.

Because the paper import declarations are not accessible, the accuracy of the data is not guaranteed, e.g., amphibians and invertebrates are often reported under HS codes for reptiles.

For a more extensive list of species of amphibians imported into Canada, see article in the journal Alytes, 2012, volume 29 (1-4): 103-115, International Trade in Amphibians.

Taxonomic Category	Taxonomic Name	Common Name	Country of Origin	Place of Export	Animal Source	Purpose of Import	Number of individuals imported
